Re: Mine Plan Permit, Utah Building Stone Supply, Grouse Creek, Utah

Dear Mr. Hedberg:

Please find attached a letter to Mr. William Bown requesting that he make a formal agreement with the Grouse Creek Livestock Association setting forth the terms which we suggested had been made in our letter to you of January 1, 1998. We have great hope that Mr. Bown will comply with our request and there will be no delay in the hearing process which your office has initiated. If you hear nothing further from us, please consider that Utah Building and Stone and Grouse Creek Livestock Association have completed a formal agreement.

Sincerely,

Blaine K, Tanner, Secretary

Dear Mr. Bown:

We have received a copy of a letter to you from D. Wayne Hedberg of the Minerals regulatory program dated January 22, 1998. We would like to draw your attention to the first paragraph of page 2, last line, which states "so that your *agreement with the GCLA* is not jeopardized." We would also like to bring to your remembrance your meeting with the Directors of the Livestock Association of August 18, 1997. The minutes from that meeting state:

The directors asked Mr. William Bown to develop a proposal for the lease of both rock mining and rock storage area with the assurance to the directors that the property will be left in good condition and no broken-down machinery be left behind in the area.

We are sure that this is a simple oversight on your part, but we need to have an agreement in hand before the protest period for your permit is passed. Please forward said proposal to Richard Kimber ASAP so that the directors may act upon it.

Sincerely,

Blaine K. Tanner, Secretary
